

I am writing on behalf of KLove and Airl radio stations and the proposed changes for LPFM. In my opinion, this is a bad move. Both KLove and Airl are very encouraging and helpful for so many people of all backgrounds, races, and walks of life. This change would remove these stations from many broadcasting areas, where people need this positive and encouraging message. Instead, the radio options would include more music and talk about violence, drugs and sexual acts. Please consider the impact that removing stations like KLove and Airl would have on communities throughout the country and allow them to remain on the air. Thank you for your time.
